

The “Universal” Dolly

“Universal” Dolly

Based on the proven features of the StarTrack dolly (foldable), Matador dolly, (Sliding push pull bar), Dinky dolly, (4 wheel steering at both ends) and Focus dolly (ultra-portable) the new “Universal” dolly combines all the best features of all Egripment Platform dollies.

The “Universal” Dolly utilizes a completely new method of steering, it folds into a small and lightweight package that weighs only 16.8 kg / 37 lbs., it carries a very good payload of 200 kg / 440 lbs., offers a solid camera platform, and it offers steering from the back or the front end, both 2 wheel steering and also 4 wheel steering when very tight turns are required. The minimum turn radius is only 85 cm/34 inches.

It can also be equipped with standard sideboards, or sideboards that contain 100mm or 150mm camera bowls, or for a tripod, and can be operated with Pneumatic Wheels, Hard Rubber Wheels, or Track Wheels. When equipped with Track Wheels it runs on standard width Track of 62 cm / 24.5” wide, straight and curved.

The “Universal” Dolly folds together into a small package that can be transported in a flight case.

In addition to the above mentioned options, it can also be equipped with most of the Egripment accessories such as seat supports, columns, bazookas and most of our Jib Arms.

The “Universal” Dolly

The “Universal” Dolly is manufactured from lightweight but very strong aircraft grade aluminum. An Automotive design with Aerodynamics, Ergonomics and Style in mind.

Once camera operators see the “Universal” dolly, they will fall in love with it. It is the lightest, strongest and most versatile dolly ever created.
