

# SKATEBOARD DOLLY

The Skateboard dolly is Egripment's platform track dolly for quick, multi-purpose and easy use.

The cooperation between Egripment's designers and our end users resulted in the Skateboard dolly with a strong platform with anti-slip surface.

The Skateboard dolly is equipped with Egripment's high quality boogie wheels and can be upgraded with a push and pull bar. A euro coupling can be mounted on several locations on the board.

The Skateboard dolly runs straight as well as curved track.
